Quick Look

The property is planned to be used for bona fide farm purposes including, but not necessarily limited to, the production of ornamental flowers, chestnut trees, timber, honey, and agritourism (such as educational workshops, chestnut harvesting and roastings, school field trips, weddings, pick-your-own flowers, retreats and conferences, and farm-to-fork dinners). In support of those purposes, applicant proposes relocation and restoration of a historic barn, which will function as a storage and processing facility for agricultural products and equipment, as an event space, and to support activities related and incidental to the operation of a farm.
